

Saudi Neonatal Resuscitation Program (SNRP)

Hybrid Course: Hands-on Clinical Training Agenda

For participants who complete cognitive prerequisites online, the condensed hybrid session focuses exclusively on hands-on practical skills and active testing, spanning approximately 3 hours and 30 minutes.

Time	Lesson Sequence	Core Hands-On Activity
07:45 - 08:00	Registration	Arrival, roster verification, and station assignment
08:00 - 08:15	Lesson 1: Course Introduction	Brief logistics review, course guidelines, and team role allocation
08:15 - 09:15	Lesson 2: The neonatal resuscitation skills station (Hands-On skills)	Focused instructor demonstrations and rapid student skill drills
09:15 - 10:15	Lesson 3: Simulation-Based Practice Case Scenario	Intense multi-scenario practice as team leaders, followed by debriefing sessions
10:15 - 10:30	Lesson 4: Simulation-Based Testing Case Scenario (Group Testing)	Team-based practical assessment (extended for remediation as required)
